U Honourable Dr Rajendra Prasad u la long u Khnong Rynsan (Chairman) jong katei ka Assembly ha katei ka sngi.

U Syed Muhammad Sa'adulla u la kren ha katei ka Dorbar da kaba ong "Sir, the Khasi Hills" have been relegated to the Sixth Schedule for which Rev. Nichols-Roy is very thankful, but there is a constitutional anomaly. Although the Constituent Assembly is not to find a remedy for that, yet I must sound a note of warning that this small district of Khasi Hills embraced 25 Native States most of which had treaty rights with the Suzerain power in Deih. They were asked to join the Indian Dominion in 1947. Instruments of Accession accompanied by an agreement were executed by these Chiefs and they were accepted by the Central Government. But though even this area has been included in the Sixth Schedule, up till now no agreement or settlement has been arrived at between the Constituent Assembly of the Federation of the Khasi States and the Assam Government or the Government of India. I do not know what will happen to these areas or people after 26th January 1950. A deputation headed by the President of the Federation of the Khasi States came early this month to Delhi to press their grievances before the States Ministry as well as the Drafting Committee. The Drafting Committee met them and they had two simple requests to make. They are the most democratic of all democratic people. Their native chiefs are elected by all the people in their territory by adult franchise. The chiefs could be removed as well by the people. They want that that system should continue. The second thing which is in the heart of all people in that part of the world is that these chiefs are only territorial chiefs. They have no right over the land. The land belongs to the people. This ancient sacred right of ownership of land in the territories of their chiefs they want to preserve, but they are afraid that section 3

of the Sixth Schedule gives a loophole for doing away with that right. They want a simple provision that these two rights may not be disturbed by the District Autonomous Councils.

Some may say that the District Autonomous Councils will consist of their own representatives, but membership is limited to twenty-four and three-fourths of it only is to be elected, and the rest one-fourth has been left in the air. I do not know whether these seats will be filled up and by what process, whether by nomination and if by nomination by whom, or by any other form of indirect election. I know that these Khasi people are late in the day and nothing can be done at the third reading but I request those honourable Members who will continue to be Members of the Constituent Assembly even after the 26th January 1950 to see that this wrong of the Khasi people is righted in no time, for the contentment and peace of this area will greatly conduce to the safety and preservation of the boundaries of the Indian Dominion "

Ka jingmut jong katei ka jingkren ka long ba u Syed Muhammad Sa'adulla u la ong "Sir, ka Khasi Hills ka la shah tyndep ha ka Sixth Schedule bad u Rev. "The first British knowledge of the Khasi Hills dates from the time when the East India Company acquired the Dewani of Bengal in 1765; which also included the adjoining district of Sylhet. But the hillmen had never acknowledged any subjection to the Mohammedans and consequently they remained absolutely independent of the British power till 1826, when Assam was conquered and European enterprise was soon attracted by the necessities of commerce arising from the monopoly of the lime quarries from which Bengal has drawn its supply from time immemorial. The Khasis had previously been known only as troublesome marauders, particularly upon the plains of Sylhet, and their ravages between 1780 and 1790 are specially mentioned as severe....."
